

EXPERIENCE

Dream Sports (Dream11), Mumbai

JUN 2021 - PRESENT

Lead MLS - work with SportsAI BU

- Propose and create a sports video analytics system powered by ML and GenAI systems
- Work with sports scientists to formulate an objective skill-score derived from 60+ detected metrics

Senior MLS - work with Dream11 BU

- Create and Own ML personalization & experimentation across gameplay and lifecycle; ship models and platforms operating at national scale (30M+ MAU; peak 15M CCU).
- Lead contest recommendation & smart discounting; productionize neural models for product bundling and promos across the funnel; drive adoption at app scale.
- Design distributed GPU training on Ray + Databricks; standardize pipelines for large-scale inference.
- Run dynamic & static-cohort experiments (incl. network effects); set guardrails & evaluation patterns.

IIT Bombay, Prof Soumen Chakrabarti

SEP 2019 - JAN 2021

Research assistant under Prof Soumen Chakrabarti

- Design SOTA techniques to facilitate a robust entity alignment model for heterogeneous and/or multilingual knowledge graphs like Wikidata, DBpedia, etc (Surveyed models leading up-to BERT)
- Develop a target answer type predictor surpassing SOTA results using contextualised question embeddings (BERT)

PUBLICATIONS

Personalized contest recommendation in fantasy sports

- Co-author and present the paper at the - "ECML PKDD 2025 | Portugal, Porto" SEP 2025

Efficient Feature Interactions with Transformers: Improving User Spending Propensity Predictions in Gaming

- Co-author and present the paper at the - "ACM KDD 2024 | Barcelona, Spain" AUG 2024

FENCE: Fairplay Ensuring Network Chain Entity for Real-Time Multiple ID Detection at Scale In Fantasy Sports

- Co-author and publish the paper at the - "AI-ML Systems | India, Bangalore" OCT 2023

EDUCATION

M.Tech in Computer Science

2019 - 2021

Indian Institute of Technology, Bombay

- Specialise in Machine learning and NLP - various course projects in the domain
- Thesis on "Multilingual Knowledge Graphs and Corpus Linkages"
- Contribute to RnD project to design and create full stack website for displaying maps with road quality

Bachelor of Engineering in Computer Science

2015 - 2019

Vidyalankar Institute Of Technology, Mumbai

- Relevant coursework in CS engineering course
- Intern in multiple companies across domains like Android, Web, Desktop dev

ACHIEVEMENTS

- AIR 45 in GATE 2019
- Google Research India - AI Summer School 2020
- Top 100 global engineers, out of 37,000 budding engineers - "ET Campus Stars Class 2018-19"

SKILL SET

- Domain - ML, DNNs, NLP
- Platforms - Spark, Ray
- Distributed Model training and inference
- Frameworks - Pytorch, Tensorflow, Sci-kit
- Languages - Python, c++
